

Emission of greenhouse gas

According to "Greenhouse Gas Protocol" published by The World Business Council for Sustainable Development and World Resource Institute, inspect direct emission(scope 1) and indirect emission(scope 2), inspection as following:

Year	Scope 1 emission	Scope 2 emission	Total emission
2018	429.1745 tons CO2	1891.0840 tons CO2	2320.259 tons CO2
2019	388.9986 tons CO2	1845.8376 tons CO2	2234.836 tons CO2

Above outcomes all pass third party inspection company(BSI) validation and obtain statement of greenhouse gas certification.

Water Management

We care about water resource in the world. Our company seeks opportunities to conserve water so we use reverse osmosis for recyclable water.

Waste Reduction

For waste produced after production, we have obligation to identify and classify. For recycle waste, our company entrust a legitimate recycling manufacturers to manage so we can reach the goal for waste reduction.

Sanitation Policy

In addition to complying with environmental and occupational safety and health regulations, we are committed to reduce the risks caused by processes, facilities and activities to employees, and fully implement environmental safety and health systems that comply with ISO 14001 and ISO 45001 standards in order to achieve the goals regarding economic creation, environmental protection and sanitation.
